The Printer Interface (6370) is a communication gateway that allows XL200 Series controllers to interface with a wide range of printers.

The Printer Interface translates a signal from the XL200 controller and transmits it to a compatible printer.

The updated 6370 Printer Interface model replaces the 4370 Printer Interface model. This product is only compatible with AMS Controls’ XL200 Series controllers.

DIMENSIONS

SPECIFICATIONS

Communication
Options:
- Bundle Print (Part 61)
- Print on Part (Part 71)

Communication Types:
- RS232
- RS485
- Current Loop

Baud Rates:
- 300, 1200, 9600, 19200, 28800, 38400, 57600

Data Bits:
- 5, 6, 7, 8

Stop Bits:
- 1, 1.5, 2

Power
- Voltage = 24 VDC
- Current = 250 mA
